

Safety Data Sheet ELITE ACIDIFIER/MSO/NIS

NFPA HAZARD RATING				U.S. TRANSPORT SUMMARY	
0	Least			Not Regulated by DOT	
1	Slight	2	Health		
2	Moderate	1	Flammability		
3	High	1	Reactivity		
4	Severe				

SECTION 1: IDENTIFICATION	
Product Name:	CAS Elite Acidifier/MSO/NIS
Chemical Description:	Acidifying Water Conditioner, Surfactant, and MSO
Item Numbers:	1707303, 1707305
Recommended Uses:	Agricultural Adjuvant
Restrictions for Use:	See product label for use restrictions
Manufactured For: Consolidated Ag Solutions 2803 N. Nebraska, PO Box 429 York, NE 68467-0429	MEDICAL EMERGENCY TELEPHONE NUMBER: 1-877-424-7452 (24hrs) Non-Emergency Business Inquiries: 1-855-343-0323 Mon – Fri 8am – 5pm (Central Standard Time)
FOR EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE, OR ACCIDENT, CALL: CHEMTREC 1-800-424-9300 (24 hours)	

SECTION 2: HAZARDS IDENTIFICATION		
EMERGENCY OVERVIEW: Light yellow to amber liquid with a fatty ester, alcohol odor. Read all precautions of product being handled and follow the most restrictive language for all products to provide the safest work environment.		
POTENTIAL HEALTH EFFECTS: Eyes: Serious eye damage/irritation (Cat 2a) Skin: Causes skin irritation (Cat 2) Inhalation: May be harmful if inhaled (Cat 5) Ingestion: May be harmful if swallowed (Cat 5)		
Carcinogenicity	NTP: Not listed	IARC: Not listed OSHA: Not listed
SIGNAL WORD: WARNING		
HAZARD STATEMENTS: KEEP OUT OF REACH OF CHILDREN READ LABEL BEFORE USE Causes serious eye damage. Causes skin irritation.		
PRECAUTIONARY STATEMENTS:		
Prevention:	Avoid breathing fumes/mist/vapors/spray. Wash hands, face and other affected areas thoroughly after handing Wear protective gloves/eye/face protection. Do not eat, drink, or smoke when using this product. Use only outdoors in a well-ventilated area. Avoid release to the environment.	
Response:	IF SWALLOWED: Call and POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. IF ON SKIN: Get medical advice or attention, Call a POISON CENTER or doctor/physician if you feel unwell. Take of contaminated clothing and wash it before reuse. Wash with plenty of soap and water. If skin irritation occurs, get medical advice or attention. IF INHALED: Call a POISON CENTER/doctor/seek medical attention if you feel unwell. Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Get medical advice/attention. Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.	

ELITE ACIDIFIER/MSO/NIS

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS		
Ingredient	% (wt)	CAS Reg. #
Proprietary blend of methyl ester, surfactant(s), and water conditioners	100%	NA
*Ingredients not specifically listed are non-hazardous and are considered to be confidential business information under 29 CFR 1910.1200(i).		
See Section 8 for exposure limits.		
SECTION 4: FIRST AID MEASURES		
Inhalation:	Remove person to fresh air and keep comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for treatment advice.	
Ingestion:	Call a poison control center or doctor immediately for treatment advice. Have the person rinse mouth and sip a glass of water if able to do so. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.	
Eyes:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice if symptoms persist.	
Skin:	Remove contaminated clothing and wash before reuse. Rinse skin with plenty of water for 15-20 minutes. If skin irritation occurs, seek medical attention. Call a poison control center or doctor for treatment advice.	
SECTION 5: FIRE FIGHTING MEASURES		
Suitable Extinguishing Media: Use water spray, dry chemical, foam or carbon dioxide (CO ₂).		
Special Fire Fighting Procedures: Wear NIOSH/MSHA approved self-contained breathing apparatus and full bunker gear. Dike area to prevent runoff and contamination of water sources. Dispose of fire control water later. Avoid breathing vapors; keep upwind. Fight fire from a safe distance and protected location. Fight fire upwind to avoid hazardous vapors and decomposing products. Heat may build pressure and rupture closed containers, spreading fire and increasing the risk of injury. Empty containers may contain residue product and can be dangerous. Use water spray/fog for cooling containers and firefighters. Notify proper authorities if liquid material enters the sewer or public waters.		
Hazardous Combustion Products:		
Unusual Fire and Explosion Hazards:		
SECTION 6: ACCIDENTAL RELEASE MEASURES		
Personal Precautions: The proper personal protective equipment for incidental releases (such as 1 liter of product released in a well-ventilated area), use impermeable gloves, goggles, face shield, and appropriate body protection. In the event of a large release, use impermeable gloves, chemically resistant suit and boots, and hard hat. Self-Contained Breathing Apparatus or respirator may be required where engineering controls are not adequate or conditions for potential exposure exist. When respirators are required, select NIOSH/MSHA approved based on actual or potential airborne concentrations in accordance with the latest OSHA and/or ANSI recommendations.		
Environmental Precautions: Stop spill at source. Construct temporary dikes of dirt, sand, or appropriate readily available material to prevent spreading of material. Close cap or valves and/or block or plug hole in leaking container and transfer to another container. Keep from entering storm sewers and ditches which lead to waterways, and if necessary, call the local fire or police department for immediate assistance.		
Spill and Leak Response: Uncontrolled releases should be responded to by trained personnel using pre-planned procedures. Proper protective equipment should be used. In case of a spill, clear the affected area, protect people, and respond with trained personnel.		
SECTION 6: ACCIDENTAL RELEASE MEASURES, <i>continued</i>		
Methods for Containment: Absorb spilled liquid with polypads or other absorbent materials.		
Methods for Clean-up: Clean up with non-combustible absorbent (such as sand, soil, and so on). Shovel up and place all spill residue in suitable containers. Dispose of at an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.		
Other Information:		

ELITE ACIDIFIER/MSO/NIS

SECTION 7: HANDLING AND STORAGE

Handling: Follow all SDS / label precautions when using this product. Do not reuse the container.

Storage: Store in a cool, dry place. Keep containers tightly closed. Store in original container. Isolate from strong oxidants or strong alkaline materials.

Minimum Storage Temperature: N/A

Other Precautions: Consult Federal, state and local laws and regulations pertaining to storage.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection: For most conditions, no respiratory protection should be needed; however, use NIOSH/MSHA approved organic vapor respirator as necessary.

Engineering Controls: Facilities storing or utilizing this material should be equipped with an eyewash station and safety shower

Local Exhaust: Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs or other specified exposure limits. Local exhaust ventilation is preferred. Please refer to the ACGIH document, *Industrial Ventilation, A Manual of Recommended Practices*, most recent edition, for details.

Protective Gloves: Use impervious gloves such as neoprene.

Eye Protection: Wear OSHA standard chemical splash goggles.

Other Protective Clothing or Equipment: For brief contact, no precautions other than clean body-covering clothing should be needed.

Work/Hygienic Practices: Never eat, drink, nor use tobacco in work areas. Practice good hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Liquid	Specific Gravity (H₂O=1):	0.88-0.98
Vapor Pressure (mm Hg):	Not determined	Density (lbs/gallon):	7.8
Vapor Density (Air=1):	Not determined	Melting Point/Freezing Point:	< 32°F
Solubility in Water (wt %):	Emulsifiable	Boiling Point/Range:	Not determined
Viscosity:	Not determined	pH (0.5% v/v in water):	2.9
Appearance and odor:	Clear yellow to amber, Fatty ester/alcohol	Flash Point:	176°F

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability: Stable at ambient temperatures and atmospheric pressure.

Hazardous Polymerization: Will not occur

Conditions to Avoid: Strong oxidizing agents. Isolate from open flames and heat. Keep material away from aluminum metal, oleum, and nitroform.

Hazardous Decomposition Products: Combustion may yield carbon monoxide, carbon dioxide, and other hazardous gases.

SECTION 11: TOXICOLOGICAL INFORMATION

ACUTE TOXICITY

Eye Effects: May cause irritation to eyes including redness, rearing, blurred visions and discomfort

Skin Effects: Dermal LD₅₀, Rabbit, >2,000 mg/kg - 0 May cause irritation to skin. Absorption through skin increases exposure. Prolonged exposure may cause more severe irritation such as local redness and swelling.

Acute Inhalation Effects: May irritate respiratory tract and cause discomfort to nose and throat.

Acute Oral Effects: Oral LD₅₀, Rat, >5,000 mg/kg - Swallowing can cause abdominal irritation, nausea, vomiting and diarrhea. Do not taste or swallow product.

Specific Target Organ Toxicity: Not determined

CHRONIC TOXICITY

Chronic Effects: No available data

Carcinogenicity: No available data

Mutagenicity: No available data

ELITE ACIDIFIER/MSO/NIS

Teratogenicity: No available data
Reproductive Toxicity: No available data

POTENTIAL HEALTH EFFECTS:

Causes serious eye damage.
Causes skin irritation.

SECTION 12: ECOLOGICAL INFORMATION

ENVIRONMENTAL SUMMARY: No data available

ECOTOXICITY DATA:

Fish Acute and Prolonged Toxicity: No data available
Aquatic Invertebrate Acute Toxicity: No data available
Aquatic Plant Toxicity: No data available
Bird Acute and Prolonged Toxicity: No data available
Honeybee Toxicity: No data available

ENVIRONMENTAL EFFECTS:

Soil Absorption/Mobility: No data available
Persistence and degradability: No data available
Bioaccumulative Potential: No data available
Other adverse effects: No data available

SECTION 13: DISPOSAL CONSIDERATIONS

Waste: Do not contaminate water, food, or feed by disposal. Dispose of in accordance with applicable Federal, state and local laws and regulations.

Container: Empty containers must be handled properly due to product residue.

RCRA Characteristics: It is the responsibility of the individual disposing of this product to determine the RCRA classification and hazard status of the waste.

SECTION 14: TRANSPORT INFORMATION

DOT: (Ground) Not regulated for ground transportation by US DOT

IMDG: (Sea) Not determined

IATA: (Air) Not determined

TDG: (Canada) Not determined

SECTION 15—REGULATORY INFORMATION

TSCA Inventory: Not determined

SARA Title III Information:

Section 302 - Extremely hazardous substances: Not listed

Section 311/312 – Hazard Categories: Acute

Section 313 – The following chemicals are subject to the reporting requirements of Section 313 of Title III, Superfund Amendments and Reauthorization Act of 1986 and 40 CFR 372:
None

CERCLA - This product contains the following chemicals which have a reportable quantity (RQ) under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA):
None

California Proposition 65: This product contains no chemicals known to the state of California to cause cancer or reproductive toxicity.

U.S. State Worker and Community Right-To-Know (RTK) Information (CT, IL, MA, MN, NH, NJ, PA, RI):

Chemical Name	CAS #	State(s)

Not Determined

TRACE ELEMENTS: Trace ingredients (if any) are present in < 1% concentration (< 0.1% for potential carcinogens, reproductive toxins, respiratory tract mutagens, and sensitizers). None of the trace ingredients contribute a significant additional hazard at the concentrations that may be present in this product. All pertinent hazard information has been provided in this document, per the requirements of the Federal Occupational Safety and Health Administration Standard (29 CFR 1910.1200), US State equivalents, and Canadian Hazardous Material Identification System Standard (CPR 4).

WHMIS Classification: Not determined

SECTION 16—OTHER

Disclaimer: The information presented herein is based on available data from reliable sources and is correct to the best of **Consolidated Ag Solutions Cooperative, Inc.** knowledge. **Consolidated Ag Solutions Cooperative, Inc.** makes no warranty, express nor implied, regarding the accuracy of the data or the results obtained from the use of this product. Nothing herein may be construed as recommending any practice or any product in violation of any law or regulations. The user is solely responsible for determining the suitability of any material or product for a specific purpose and for adopting any appropriate safety precautions. We disclaim all liability for injury or damage stemming from any improper use of the material or product described herein.
